Ahmedabad University
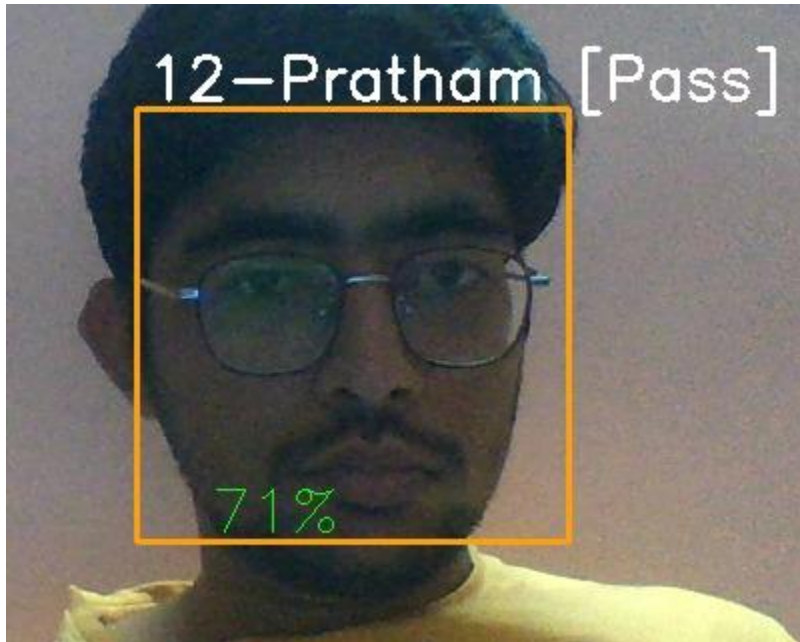

Weekly Report

AU2040260 - Pratham Lalwani

AU2040167 - Daksh Suthar

Tasks performed in the week:

We combined all the steps of the face recognition system and tested it on different faces. We analyzed the results and made necessary improvements to the system. We documented the final version of the system and prepared a final report.

Some images were not properly captured which affected the accuracy of the system for that purpose we increased the number of images captured.
